

SceneAccess will fit your current claims processes, your existing IT environment, and your budget.

SceneAccess

PRODUCT OVERVIEW

SceneAccess is a web-based, end-to-end claims solution for carriers in the P&C industry. From claims assignments to settlements, SceneAccess automates the communication of your data, resulting in shortened cycle times. Our solution is designed to easily integrate with your existing claims system. Using proprietary technology, SceneAccess improves both adjuster and customer satisfaction levels.

SCENEACCESS BENEFITS

INTEGRATION INTO EXISTING SYSTEMS

SceneAccess can be fully integrated into your claims management system so that assignments can be dispatched directly to any combination of staff appraisers, independent appraisers or DRP.

CONNECTIVITY TO EXTERNAL RESOURCES

SceneAccess allows you to send assignments, messages and attachments to external resources, improving communications and accelerating claim settlement.

ONE SOLUTION FOR MULTI-LINES OF BUSINESS

SceneAccess can accommodate property, APD, and BI lines-of-business, increasing corporate savings.

AN EASY-TO-USE, PROVEN SYSTEM

There are over 2,500 carrier users (appraisers and adjusters) and over 7,000 external users (repair facilities and independent appraisers) utilizing SceneAccess.

VERSATILITY IN A CHANGING ENVIRONMENT

SceneAccess enables future decisions and does not preclude shifting technological options. Our solution was built on web services and .NET technology, allowing for extraordinary flexibility.

ONE COLLECTION POINT FOR ALL INFORMATION

SceneAccess organizes relevant claim data into a single electronic folder. Complete claim files are easily referenced whether stored in your document management system or our website.
