Mark Tantillo

“SceneExchange has brought pride back to our business. Jobs aren’t flowing to our shop because they were directed to us. The vehicle owner chose us because of the quality of our work, rated by other owners. Our customer satisfaction rating is higher on SceneExchange jobs because the owner is better educated on and more involved in the repair process.”

—Mark Tantillo, General Manager of Folger’s Autobody in Charlotte, NC

Spend your time on quality work, not paperwork.

Had enough of chasing down business and keeping your DRPs straight? Nobody opens up shop hoping to spend their days knee-deep in bureaucracy and paperwork—not to mention shrinking margins.

Let SceneExchange make your life easier.

Insurers want to control costs, you want to be profitable, consumers want information—we make it easy to keep everyone happy.

SceneExchange is a web-based marketplace that allows for a customer-focused experience during their next damage repair. Carriers submit claims and one of our 1,000 independent appraisers nationwide is immediately on the job. They file a damage appraisal in the system, which alerts collision shops in the area that a new job is up for bid. The consumer can review bids as well as read reviews and ratings online before making their shop selection.

Responsive to today’s critical needs.

- Your shop is on an even playing field—steering is eliminated
- Control over your shop’s capacity is in your hands—place cycle-time bids only on jobs you want
- It’s an insurer-backed alternative to DRPs
- Job estimates are submitted by over 1,000 independent appraisers nationwide
- Consumers are happier coming in the door—after all, they chose you
